RESEARCH CONTRIBUTION

The faculty of DPC has made a phenomenal impact on our college and community. The extensive amount of research and dedication were motivating and inspiring. Their path to achieving their goals inspired many students, including us, to learn and prosper until we graduated and became high achievers like them.

To begin, we would like to start with an impressive research article written by the faculty of DPC:

Dr. Ammar Ali Saleh and Dr. Mirza R Baig (collaborators Farah Jabbar Ali Alliabi and Mahir Khalil Ibrahim) on "Treatment guidelines for Type II Diabetes Mellitus (T2DM) in Ajman, United Arab Emirates," published on the BMC Primary Carewebsite (7th April 2022). outstanding and impressive work by our faculty, which is really helpful in the field of treatment of diabetes mellitus.

It was great to hear from experts at the first scientific conference on Health and Medical Research conference regarding genetics and AI applications in clinical practice. It was a pleasure to share my research poster, "Evaluation of knowledge, screening practice, and Potential Risk Prevalence of Breast Cancer among Women in UAE" there and connect with colleagues from Dubai Pharmacy College and the UAE.

The participation of Ms. Maram Abbas with DPCG faculty in the first scientific conference on health and medical research, which was held by the Ministry of Health and Prevention.

NEWS & EVENTS

UAE NATIONAL DAY CELEBRATION

The UAE National Day is a much-awaited day in the Emirates and is celebrated with great enthusiasm and fervor, and our college was no exception.

We celebrated it on the 29th of November in the Medical College's garden, which was decorated beautifully. There were stalls for the local cuisine—the famous Luqaimat and Regag; henna designing; and a local shop that sold many goodies. We also had an amazing mini-performance from the kids from different schools. The horse riding and horse show were two of the main attractions.

But the main star was the Biryani, no doubt.

The celebration was held from 12:30 p.m. to 3 p.m. All in all, it was a success, and we would like to thank the organizers for such a wonderful event.

DIABETES AWARENESS EVENTS

On November 24, 2022, a diabetes awareness event was held at Sahara Mall. This community outreach activity reflected our distinguished students' capabilities and competencies. Third- and fourth-year students participated. The students took blood pressure and blood sugar measurements from the mall visitors and provided proper counseling for each individual based on their health condition. A couple of suspected but undetected cases of hypertension and diabetes had been recognized by the students, and they guided the patient in the proper way to follow their condition.

An awareness event has been conducted by the community engagement unit at Al Shoola School. On November 14, an informative lecture was given, followed by an educational session about the dangers of bad habits and a sedentary lifestyle on our health, and a demonstration for the students on how to perform BP and BS measurements.

Dubai Pharmacy College had been awarded an appreciation certificate for its continuous contribution to health awareness campaigns.

MEMORANDUM OF UNDERSTANDING BETWEEN DUBAI PHARMACY COLLEGE FOR GIRLS (DPCG) AND MADDA WALABU UNIVERSITY (MWU)

Dubai Pharmacy College for Girls (DPCG) has signed a memorandum of understanding with Madda Walabu University (MWU), a public university in Ethiopia, on December 9, 2022. The MOU was signed by the dean of DPCG (Prof. Dr. Saeed Ahmed Khan) and the president of MWU (Dr. Ahmed Khalil). The purpose of this agreement is to enhance collaboration in the fields of education, research, training, and dissemination of information. It also aims for an exchange of expertise from both sides to foster academic and research outcomes.

DIABETES SYMPOSIUM

FUH International Symposium was held by Fakeeh University Hospital Dubai, FUH 1st International 2-Day Symposium.

"Fakeeh University Hospital Yearly International Symposium": "When the size matters, raising the bar... to the waist" is to increase awareness and knowledge .

Obesity is prevalent around the world and a source of concern in the UAE, where incidence and prevalence are increasing.

It is not an aesthetic issue, as some people believe, but a disease that causes gradual involvement and damage to virtually all of our body's organs and systems.

The goal of this symposium was to raise awareness and knowledge through highly scientific contributions, beginning with risk factors and proper assessment and progressing to the consequences in terms of morbidity and complications. In addition to giving workshops, Dr. Ammar was on a panel with a high level of engagement in the conversation, which plays a significant role on behalf of Dubai Pharmacy College.

TALENT SHOW DAY

Dubai Pharmacy College celebrated the talent's day on 22nd November 2022. The show was hosted by Lakisha and Rahma from second year. The event was witnessed by the dean of the college, faculty members, and several other staff members, along with students. The talent show began with an award giving ceremony to the toppers of DPC and the doctors behind their success. It was an exciting opportunity for the students to showcase their talents, such as singing, dancing, speaking, cooking, painting, etc. The atmosphere was filled with entertainment and enthusiasm, and the students were capable of attracting the attention of the audience.

STUDENT'S AISLE

A LITTLE PROGRESS EACH DAY
ADDS UP TO BIG RESULTS

- SATYA NANI

BEE_SKINCARE5

Anfal Abdulla (4th year) had an ambition and a passion to have her own shop in the future. She began by solely doing body washes and then promoted her work on Instagram and TikTok. She then noticed that there were a lot of positive comments. Except for her dream, there is no specific story. She began making body butter, hand soap, soaponiya body oils, and body sprays in various scents, as well as hair oils and hair masks. She's hopeful that one day she'll have a shop and new products every year.

LUNA EVENTS

Baraah Abdulhakim from batch 28 was asked, "What is Luna?" "It is a firm that decorates various events in various locations," she replied. The main focus of our company is making extraordinary memories with special people.

Party decorating can be a lot of fun, but it can also be a lucrative business. If you enjoy party decorating and have a creative touch, now is a fantastic moment to transform your hobby into a profitable business. Party decorating is a rising \$3 billion industry, and you might get a piece of it for a little investment.

HANNAH MOLLAIE

Hannah Mollaie is from batch 31. Hannah is fascinated by art and is drawn to everything in it. She likes makeup and did it as a hobby at first, but it eventually became her work, from which she earns money. She worked as a makeup artist for a while before leaving to study, but this was not an obstacle. She indulged in her favorite activity, designing and embroidering cloth.

She saw the neighborhood women performing this craft as a child and used to sit next to them and practice, which is when she recognized she was interested in this art.

A GLANCE AHEAD

BEGINNING IN JANUARY WILL BE THE FIRST SEMESTER'S FINAL EXAMS.

"I hope the best for you, but keep this in mind. Remain composed and confident in yourself. Make a positive affirmation to your unconscious mind. Therefore, everything you just imagined will begin to happen once your mind begins to believe".

So begin to believe in yourself.
