PROF.DR. SHERIEF KHALIFA ATTENDS THE

ACPE INTERNATIONAL COMMISSION MEETING

Vice Chancellor & Dean Prof.Dr. Sherief Khalifa participates in the ACPE International Commission meeting in Chicago - November 2024

Prof.Dr. Sherief Khalifa, Vice Chancellor and Dean of Dubai Pharmacy College for Girls attended the biannual Accreditation Council for Pharmacy Education International Commission meeting on November 19 - 21, 2024. As usual, the mission of the international commission in advancing pharmacy education globally was present in all the discussions and deliberations of the group.

Prof.Dr. Khalifa commented:

"It is an honor and a privilege to serve on the commission with pharmacy academicians and professionals who are working together to bring positive change to pharmacy education and the pharmacy profession around the world. We are making a difference and an impact!"

FACULTY VISIT TO THE PHARMACY DEPARTMENT AT CLEVELAND CLINIC ABU DHABI

On December 20, 2024, A faculty delegation from DPCG, led by Prof. Sherief Khalifa, Vice Chancellor for Academic Affairs and Dean of the College of Pharmacy, visited the In-Patient Pharmacy Department and Sterile Compounding Section in Cleveland Clinic Abu Dhabi.

The team was privileged to engage in meaningful discussions with Dr. Saad Sultan (Executive Director of Pharmacy Services), Dr. Shaib Shuai (Manager of Inpatient Pharmacy Operations), Mohammad Siddiqui (Director of Hospital Pharmacy Services), and other pharmacists from the CCAD team. The discussion included a potential collaboration to establish a joint "Professional-Certified Program in Sterile Compounding" to advance educational and professional opportunities. Also, finding new strategies to improve students' learning experience by bridging academic knowledge with hands-on field practices and using real-world applications in the curriculum to ensure their success as future pharmacists.

The faculty are grateful to the Pharmacy Department at Cleveland Clinic Abu Dhabi for their invaluable support, collaboration, and generous sharing of expertise. Their warm hospitality made this visit a truly memorable and productive experience.

DISCUSSES JOINT PROGRAMS WITH KING'S COLLEGE LONDON AND MEAPP

On December 5, 2024, Dubai Medical University (DMU) hosted a delegation from King's College London and the Middle East Academy of Pharmaceutical Physicians (MEAPP) to discuss transformative academic collaborations. The delegation was led by Dr. Assem El Baghdady – MD, MFPM, GFMD, FRCP, President & Co-Founder of MEAPP, accompanied by Dr. Shaikha AlMazrouei, representing both King's College London and MEAPP.

From DMU, Vice Chancellor – Academic Affairs, Prof. Sherief Khalifa, Dr. Shifan Khanday, Prof. Naglaa Shehab and Prof. Mirza Baig contributed in the discussions. The focus of the discussions was on focused on establishing joint modules and master's programs in pharmaceutical medicine. These programs aim to provide cutting-edge education and training, equipping healthcare professionals with the expertise needed in the evolving field of pharmaceutical medicine.

As part of the visit, DMU formalized its institutional membership with the Middle East Academy of Pharmaceutical Physicians (MEAPP), further solidifying its position as a hub for academic excellence and innovation in the region.

This collaboration reflects DMU's commitment to fostering global partnerships, advancing health professions education, and preparing future leaders in the pharmaceutical sector.

DPCG

EXCITING COLLABORATION IN THE MAKING

On December 12, 2024, Prof. Anagha Joshi, Principal and Dr. Dayanand Kannur, Vice-Principal from Indira College of Pharmacy, Pune, INDIA visited Dubai Pharmacy College for Girls. The team had a fruitful meeting with Prof. Sherief Khalifa, the Dean of the College of Pharmacy and Vice Chancellor – Academic Affairs. The discussion focused on exploring a range of collaborative initiatives aimed at strengthening academic and professional ties between the two institutions.

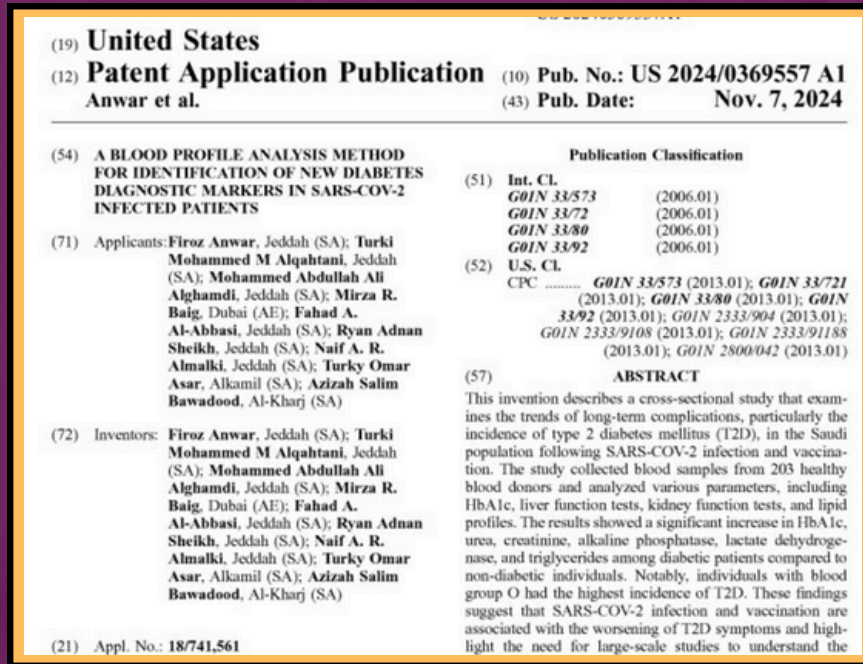

Prof. Khalifa expressed enthusiasm for these initiatives, noting their potential to significantly enhance the academic and professional landscapes of both institutions. The meeting concluded with a shared vision of fostering innovation, building capacity, and advancing the field of pharmacy education through these collaborative efforts.

This promising dialogue marks the beginning of a strategic partnership that could set new benchmarks for global collaboration in pharmaceutical education and research.

Stay tuned for updates on this exciting journey!

PROF. MIRZA R. BAIG COLLABORATES WITH KAAU RESEARCHERS ON US PATENT ACHIEVEMENT

United States Patent Application 20240369557- BLOOD PROFILE ANALYSIS METHOD FOR IDENTIFICATION OF NEW DIABETES DIAGNOSTIC MARKERS IN SARS-COV-2 INFECTED PATIENTSPUBLISHED- 07/11/2024

Prof. Mirza R. Baig along with the group of researchers from King Abdul Aziz University (KAAU), Jeddah, Saudi Arabia conducted a study among SARS-COV-2 patients and analyzed blood profile analysis method for identifying new diabetes diagnostic markers.

A patent has been applied by KAAU as an intellectual property to protect the originality of the process.

The present invention relates to a study that examines the trends of long-term complications, particularly the incidence of type 2 diabetes mellitus (T2D), in the Saudi population following SARS-COV-2 infection and vaccination. The results showed a significant increase in HbA1c, urea, creatinine, alkaline phosphatase, lactate dehydrogenase, and triglycerides among diabetic patients compared to non-diabetic individuals.

Notably, individuals with blood group O had the highest incidence of T2D. These findings suggest that SARS-COV-2 infection and vaccination are associated with the worsening of T2D symptoms and highlight the need for large-scale studies to understand the long-term metabolic complications of the COVID-19 pandemic, aiming to develop effective prevention and management strategies.

Prof. Dr. Mirza R. Baig was included in the patent application as a consultant to help in research design and biostatistics. As a faculty collaborator, DPCG is the part of this patent.

Abstract

DPCG Master's Student in Clinical Pharmacy Publishes Research in a Q1 Journal:

Our master's student **Betoul Alshouli** has successfully published her research in the highly regarded PLOS ONE journal, classified as a Q1 SCOPUS-indexed publication.

The study, titled "Evaluation of Knowledge and Attitude Concerning Augmented Renal Clearance Among Physicians and Clinical Pharmacists in Al-Ain, UAE: A Cross-Sectional Study," investigates healthcare professionals' understanding of augmented renal clearance. Betoul's significant contributions reflect the quality and dedication of our master's students in advancing critical healthcare topics.

We also extend our appreciation to **Dr. Ammar Jaber** the main supervisor and principal investigator, and other coauthor for their invaluable roles in this collaborative effort.

FACULTY RESEARCH SESSION EXPLORES BREAKTHROUGHS IN ANTICANCER AGENT DISCOVERY

On Wednesday, November 13, 2024, the Dubai Pharmacy College for Girls (DPCG) hosted an engaging Faculty Research Session presented by Prof. Ashraf Khalil from the Department of Pharmaceutical Sciences.

The session, titled "Discovery of Novel Anticancer Agents: An Overview from Bench to Patent," provided a comprehensive look at the development of anticancer drugs, from initial research to securing patents.

Prof. Ashraf delved into the critical steps of patenting innovative therapies, including the importance of filing a disclosure form as the first step to document the invention and establish intellectual ownership. He also explained the role of a Provisional Patent Application in securing an early filing date, giving researchers time to refine their invention while protecting their rights. By navigating these processes effectively, inventors can safeguard their innovations and facilitate the transition from research to real-world therapeutic solutions.

The session was attended by faculty members from DMCG, DPCG, and CON, reflecting a collaborative academic environment aimed at fostering interdisciplinary learning and research. Faculty participants praised the event for its relevance, gaining valuable insights into transforming groundbreaking research into impactful patents.

DPCG remains committed to fostering research excellence and inspiring collaboration through such sessions. The future goal is to drive translational research that bridges pharmaceutical sciences with clinical practice, ensuring innovations translate into impactful patient care. Stay tuned for more cutting-edge opportunities within the academic community.

PROF. ASHRAF KHALIL INAUGURATES CHEMISTRY EXHIBITION AT AL AHLIA PRIVATE SCHOOL

Prof. Ashraf Khalil from Dubai Pharmacy College visited Al Ahlia Private School on Monday, November 4th, to inaugurate the Chemistry Exhibition as part of the school's Chemistry Week celebrations.

The exhibition showcased a variety of innovative experiments and interactive displays, aimed at sparking students' interest in the field of chemistry.

Prof. Ashraf commended the school's efforts in promoting scientific curiosity and engaging students in hands-on learning experiences.

During his visit, he interacted with students, discussing the importance of chemistry in everyday life and future career paths. The event highlighted the school's commitment to advancing science education and inspiring the next generation of researchers.

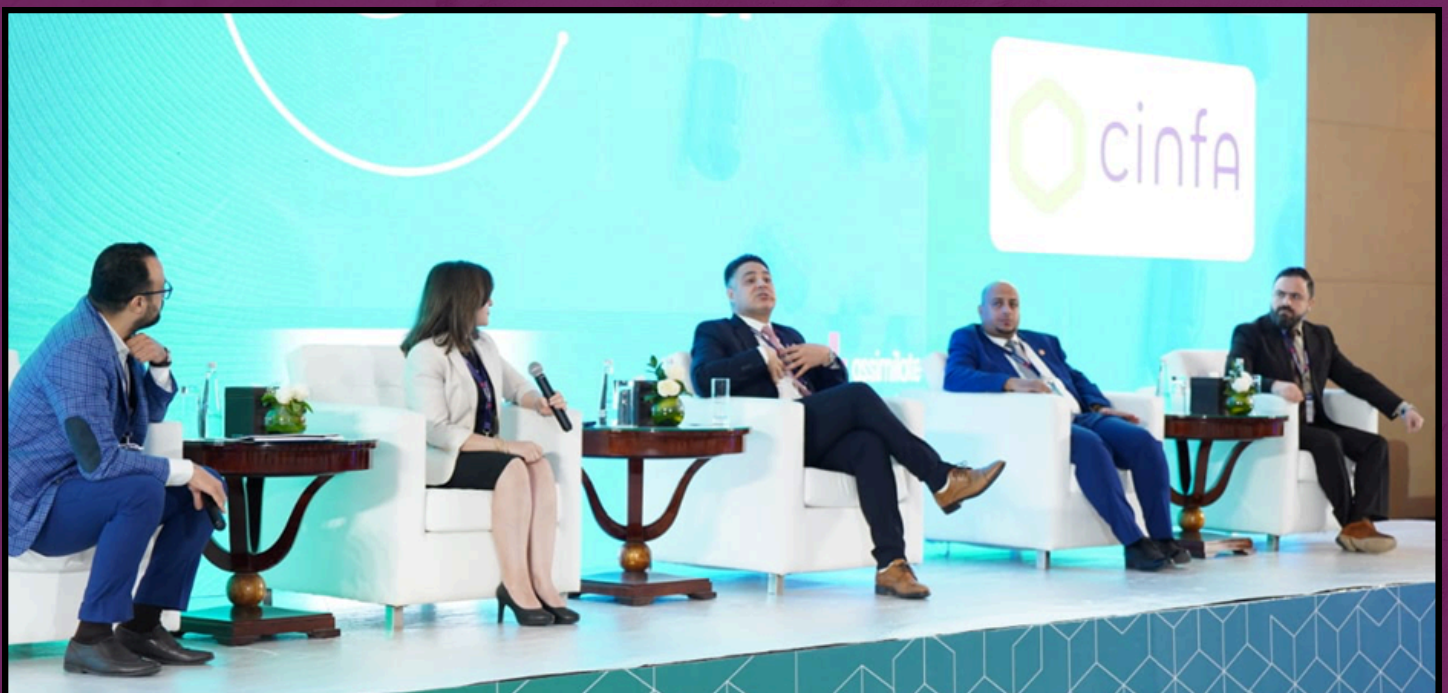

DR. AMMAR JABER SPEAKS AT PHARMACY ACADEMY MEDICAL CONGRESS 2024

Dr. Ammar Jaber recently had the opportunity to participate as a speaker in the Pharmacy Academy Medical Congress 2024 held on November 17th at Conrad Dubai.

He commented that it was an honour to participate in the event and was happy to connect with likeminded professionals. He also thanked the organizers *Dr. Yanal Salam* , and *Dr. Wael Atef* and the contributors for success of the event.

DPCG Faculty Members Attend Global STEM Confex 2024

Our esteemed faculty members actively participated in the Global STEM Confex 2024, held on 6th-7th November 2024 at the Millennium Plaza Downtown Hotel, Dubai, UAE. Organized by the International Business and Economic Forum (IBEFoRuM), the conference served as a platform for global leaders, educators, and professionals to engage in discussions on cutting-edge innovations in STEM fields. This event provided an excellent opportunity to network, exchange knowledge, and explore new ideas shaping the future of science, technology, engineering, and mathematics. Our faculty's attendance underscores their commitment to staying at the forefront of advancements in education and research.

DPCG Students Shine at Dubai Police Forensic Evidence Forum 2024

On November 4, 2024, senior students from Dubai Pharmacy College for Girls actively participated in the Forensic Evidence Forum for University and College Students, organized by Dubai Police. Under the guidance of Dr. Hanan Anbar, Clinical Toxicology instructor, students presented three research posters:

- Digoxin Toxicity: Exploration of Cullen's Crime Case by Jumana Al-Anssari, Nour Hejazi, Raneem Zakrya, and Marwa Hadi.
- Pregabalin: The "New Valium" by Haneen Badreldin, Jannat Akram, Maryam Elnazier, Rahma Nasir, and Naiba Khusrau.
- Toxicology of the CIA Heart Attack Gun by Nadeen Alrabaae.

Highlighting the connection between toxicology studies and forensic evidence, the event showcased how academic knowledge translates into practical application. Notably, Ms. Jannat Akram received an award in a forensic toxicology competition.

Postgraduate Viva Success: Congratulations to Jannah Faisal!

Dubai Pharmacy College for Girls proudly announces the successful completion of the Postgraduate Viva Session for MPharm student Jannah Faisal on December 5, 2024.

Thesis Title:

Prevalence and Predictors of Inappropriate Dosing Among Patients Receiving Direct Oral Anticoagulants (DOACs): A Retrospective Study

The viva session was both engaging and insightful, reflecting Jannah's dedication and in-depth research.

Special Acknowledgments:

- External Examiner: Dr. Ahmed Aboo, Head, Leicester School of Pharmacy, UK
- Supervisor: Assoc. Prof. Dr. Semira Beshir
- Co-Supervisors: Ms. Eiman El Gilani and Dr. Waqar Ahmad
- Internal Examiner: Prof. Dr. Mirza Baig

This achievement underscores Jannah's commitment to advancing the field of pharmacy. Congratulations, Jannah, on this outstanding success! 🎉🌟

DPCG Hosts Mendeley Webinar for Faculty Development

Dubai, UAE – November 2024

The Dubai Pharmacy College for Girls successfully hosted a webinar titled “The Essential Mendeley Webinar: Managing References with Ease” on Thursday, November 21, 2024. The webinar, conducted via Microsoft Teams from 1:30 to 3:00 p.m., was presented by Dr. Sarah Antar, an accomplished advisor for Mendeley Software at Elsevier and a research candidate at the University of Sheffield, UK. She specializes in research on DNA damage and repair mechanisms, non-coding DNA regions, cancer biology, and neurodegeneration. During the session, Dr. Sarah provided an overview of Mendeley’s features and conducted a hands-on practice session to familiarize attendees with efficient citation and reference management techniques. The session concluded with an engaging Q&A segment.

The event was made possible through the collaborative efforts of Dr. Hanan Anbar and Dr. Doaa Kamal, who facilitated the coordination with Dr. Sarah. A special thanks was also extended to Mr. Ali for his invaluable technical support, ensuring the webinar ran smoothly on the Microsoft Teams platform. This initiative reflects the DPCG’s commitment to empowering its faculty and students with cutting-edge tools for academic and research excellence

AI-Driven Education with Full-Scale Training and OpenAI Collaboration

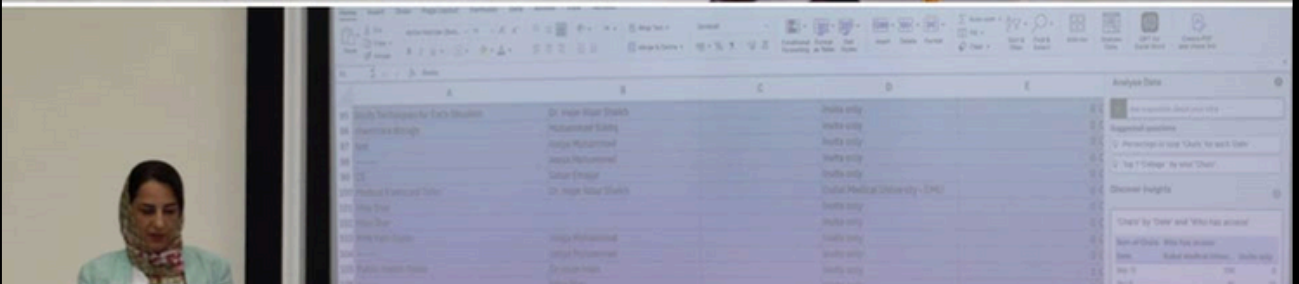

Dubai Medical College for Girls (DMCG) and Dubai Pharmacy College for Girls (DPCG) announce a groundbreaking achievement in healthcare education, marking new milestones in AI integration and faculty training.

In a pioneering move, DMCG and DPCG have collaborated with OpenAI to implement the ChatGPT EDU Platform into their academic framework, making them the first institutions in the region to integrate this advanced technology into healthcare and pharmacy education. This collaboration has already resulted in the development of 215 custom Generative Pre-trained Transformers (GPTs), specifically designed to enhance learning through simulations, assessments, curriculum design, subject-specialized content, and research support.

As part of their commitment to innovation, DMCG and DPCG also achieved 100% certification in Generative AI (ChatGPT) and emerging AI technologies across their entire community—faculty, students, and staff. This extensive training ensures that everyone involved in these institutions is well-equipped with the tools and knowledge to leverage AI effectively in education and healthcare.

Leadership in this project from the AI and Smart Education Unit has been instrumental. Dr. Shifan Khanday, Mr. Walid Moustafa, and Mr. Ali Hantash were praised for their dedication in training and guiding this initiative, setting a high standard for AI adoption in education.

“We are proud to be the pioneers in embracing AI-powered learning and setting a new standard in healthcare education. This initiative not only enhances the learning experience for our students but also reaffirms our commitment to staying at the forefront of educational innovation,” said Prof. Sharief Khalifa.

Video Competition

كلية دبي للصيدلة للبنات
DUBAI PHARMACY COLLEGE FOR GIRLS

Dubai Pharmacy College Video Competition

Unleash your creativity and showcase your journey at Dubai Pharmacy College! Participate in our video competition and stand a chance to win exciting prizes.

Competition Themes:

1. «A Day in My Life at DPC»
Share your personal experiences, friendships, and memorable moments at Dubai Pharmacy College.
2. «Reflecting on My Future: The Pharmacy Profession»
Highlight your passion for the pharmacy field and how you envision your role as a healthcare professional.
3. «Why DPC? My Path to Success»
Explain why you chose Dubai Pharmacy College and how it has shaped your academic and professional journey.

Video Guidelines:

- Length: 60 - 90 seconds
- Ensure high-quality production
- Adhere to proper dress code
- Be innovative and creative

- The video must prominently feature Dubai Pharmacy College

Prizes:

- Certificates for all participants
- A special gift for the winner
- Winner Selection: Based on the highest number of Instagram likes after committee approval and posting!

Submission Details:

- Submit your video to: sau@dpc.edu
 - Submission Deadline: 20th October 2024
- Once approved, your video will be posted on the official Dubai Pharmacy College Instagram page.
Show your creativity and Register NOW
(Deadline for registration: 10th October 2024)
Registration Link:

Dubai Pharmacy College Video Competition Registration & Consent Form

Congratulations to Our Winners!

We are proud of the winners of the Dubai Pharmacy College for Girls Video Competition "A Day in my Life at DPC"! Your creativity, dedication, and stories about life at DPCG and the pharmacy field have truly inspired us.

Thank you for sharing your talents with us. Keep up the great work

Unity in Celebration

53rd UAE National Day

27th NOV 2024- Dubai Medical College for Girls and Dubai Pharmacy College for Girls Celebrate the 53rd UAE National Day

On Wednesday, 27th November, Dubai Medical College, and Dubai Pharmacy College came together to proudly celebrate the 53rd UAE National Day at the DMU Garden. The event brought together students, faculty, and staff to honor the UAE's rich heritage and remarkable achievements over the past five decades.

The celebrations reflected the spirit of unity and gratitude as the colleges marked this milestone in the nation's history. Attendees enjoyed a range of cultural activities, including traditional music, food, and displays of Emirati heritage, fostering a sense of pride and community.

The colleges extended their warmest wishes to the UAE leadership and citizens, expressing their commitment to supporting the nation's progress.

Unity in Celebration

53rd UAE National Day

Experience

Become a Pharmacist for One Day

Dubai Pharmacy College for Girls Welcomes Springdales School - Dubai for "Become a Pharmacist for One Day" Experience

On November 14, 2024, Dubai Pharmacy College for Girls had the pleasure of hosting students from Springdales School Dubai for a unique "Become a Pharmacist for One Day" program. This engaging event introduced students to the pharmacy profession through interactive sessions and practical experiences.

The day began with a welcoming speech, followed by hands-on sessions in our Pharmaceutics Lab and Simulation Lab. Students enjoyed learning practical skills and engaging in patient care exercises designed to showcase the vital role of pharmacists in healthcare. The event concluded with a campus tour, allowing students to explore our facilities and experience life as a pharmacy student.

Become a Pharmacist for One Day

Dubai Pharmacy College for Girls Welcomes Dubai International School for "Become a Pharmacist for One Day" Experience

On November 13, 2024, Dubai Pharmacy College for Girls had the pleasure of hosting students from Dubai International School for an engaging "Become a Pharmacist for One Day" experience. This unique event introduced students to the pharmacy profession through a series of interactive sessions and hands-on activities.

The day began with a welcoming speech, followed by immersive sessions in our Pharmaceutics Lab and Simulation Lab. Students enjoyed learning practical skills and participating in patient care exercises, gaining firsthand insight into the role of a pharmacist. The experience concluded with a campus tour, allowing students to explore our facilities and see what life as a pharmacy student entails.

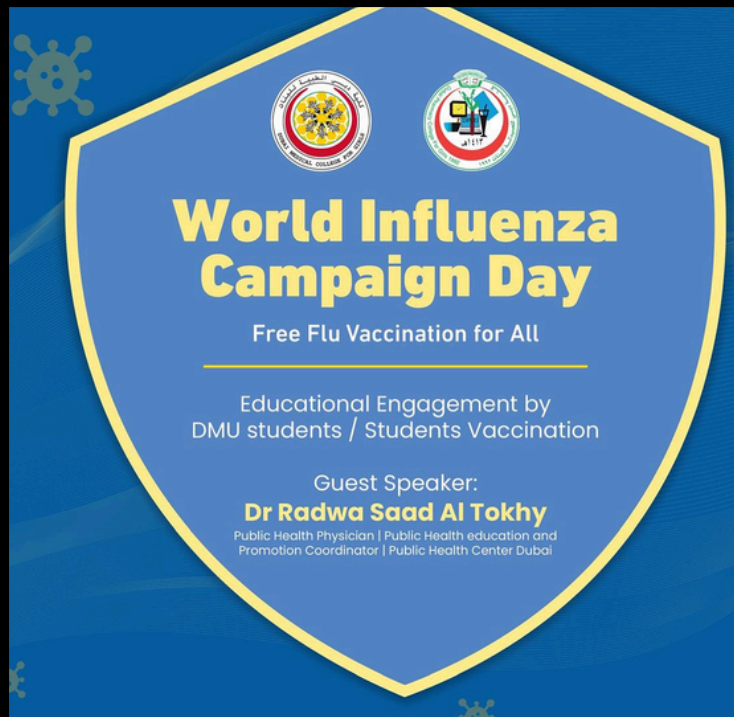

Campaign Day

Dubai Medical & Pharmacy College for Girls Partner with Emirates Health Services to Offer Free Flu Vaccination to the Community

On November 13, 2024, Dubai Medical College for Girls and Dubai Pharmacy College for Girls, in collaboration with Emirates Health Services (EHS), launched a proactive flu vaccination drive aimed at enhancing campus and community immunity. The initiative provided free flu vaccines to students, faculty, staff, and their families, underscoring a commitment to health and well-being that extends beyond campus boundaries.

This outreach was further expanded to benefit the staff of the Saeed Ahmed Lootah Foundation and Dubai Islamic School, fostering a broader impact within the community.

We are proud to lead this vital health initiative, promoting a culture of preventive care, and we extend our heartfelt gratitude to the EHS team for their dedicated support in ensuring the success of this event.

Awareness Campaign

Dubai Pharmacy College for Girls Students Drive Change with Diabetes Awareness Campaign

The Public Health Committee of DPCSU-IPSF led an impactful Diabetes Awareness Campaign, uniting students, faculty, and staff for a day dedicated to health education and screening. With the active support of clinical pharmacists, lecturers, and fourth-year pharmacy students, the event offered health checks alongside practical guidance on diabetes prevention.

In just two hours, a total of 85 participants were screened. During the screenings, the team identified an individual for further investigation for diabetes/prediabetes.

Fourth-year pharmacy students, supervised by healthcare professionals, engaged in conducting tests and sharing preventive care tips. It was an overall very positive experience for students in being advocates for their patients and for their pharmacy profession.

Inter-professional Insights

Inter-professional Insights: Learning Together about Roles and Responsibilities – A panel Discussion

On November 6, 2024, DMCG & DPCG and the College of Nursing collaborated on their first Interprofessional Education (IPE) event, themed "Interprofessional Insights: Learning Together about Roles and Responsibilities." This event brought together students from these three fields to develop a deeper understanding of collaborative healthcare. Through an engaging panel discussion, experienced practicing professionals from medicine, clinical pharmacy, and nursing shared their daily experiences highlighting their roles and responsibilities, successes and challenges they face in interprofessional collaboration.

Students engaged actively, asking questions to the panelists and exploring the responsibilities of each profession. In addition, they participated in a group case discussion on medication-related issues, emphasizing the importance of teamwork. profession's contribution to patient care and safety. This event aimed to enhance students' communication and collaboration skills, equipping them with essential interprofessional competencies that align with IPE's core learning objectives. The group case discussions successfully created a collaborative learning environment, promoting mutual respect and teamwork among future healthcare professionals. This initiative underscores the commitment to preparing students for effective teamwork in diverse healthcare environments.

Celebrate Diversity at the Global Village

Dubai Pharmacy College for Girls students celebrate diversity at the Global Village

On November 21, 2024, students and faculty from DPCG enjoyed an exciting journey at Global Village, Dubai, where they explored the tapestry of cultures and traditions from around the world.

More than just a fun outing, this experience was a beautiful opportunity to connect, learn, and celebrate the diversity that unites us all.

At DPCG, we build a strong community, and trips like these foster meaningful bonds while broadening our horizons. They remind us of the importance of understanding and embracing the world's many cultures core value we hold dear.

Thank you to everyone who participated and made this visit so special! Moments like these are what make the DPCG family truly extraordinary.

Hosts Its Inaugural Event

DPC-IVPN STUDENT CLUB

The DPC-IVPN Student Club organized the Rx Slices event at Dubai Pharmacy College, bringing together students and faculty for an engaging and collaborative experience. The event provided an opportunity to foster teamwork, highlight pharmaceutical knowledge, and strengthen connections among attendees.

Dubai

Fitness Challenge initiative

Proud to be part of the Dubai Fitness Challenge initiative.

Running through the heart of Dubai with pride and purpose! DMCG and DPCG students came together for Dubai Run 2024, showcasing strength, unity, and determination.

Proud to be part of the Dubai Fitness Challenge initiative.

BITS

Sports Festival

to cheering loud and proud at the BITS Pilani Sports Fest 2024

We are proud to share that our talented athletes successfully represented Dubai Medical College for Girls and Dubai Pharmacy College for Girls at the 21st edition of the BITS Sports Festival (BSF) in Dubai! As the largest inter-university and inter-school sports festival in the UAE, the event attracted players from over 35 universities and 25 schools, with a vibrant crowd of over 4,500 spectators over five exciting days.

This monumental platform showcased the incredible talents of our athletes, who competed alongside some of the best in the region.

UAE Flag Day

3rd Nov 2024- Dubai Pharmacy College for Girls, we proudly celebrate UAE Flag Day

At Dubai Pharmacy College for Girls, we proudly celebrate UAE Flag Day, honoring the spirit of unity, ambition, and pride that defines our nation. Together, we raise the UAE flag high as a symbol of our commitment to excellence in education and our dedication to serving our community.

يوم العلم
NOVEMBER 03 نوفمبر

FLAG DAY

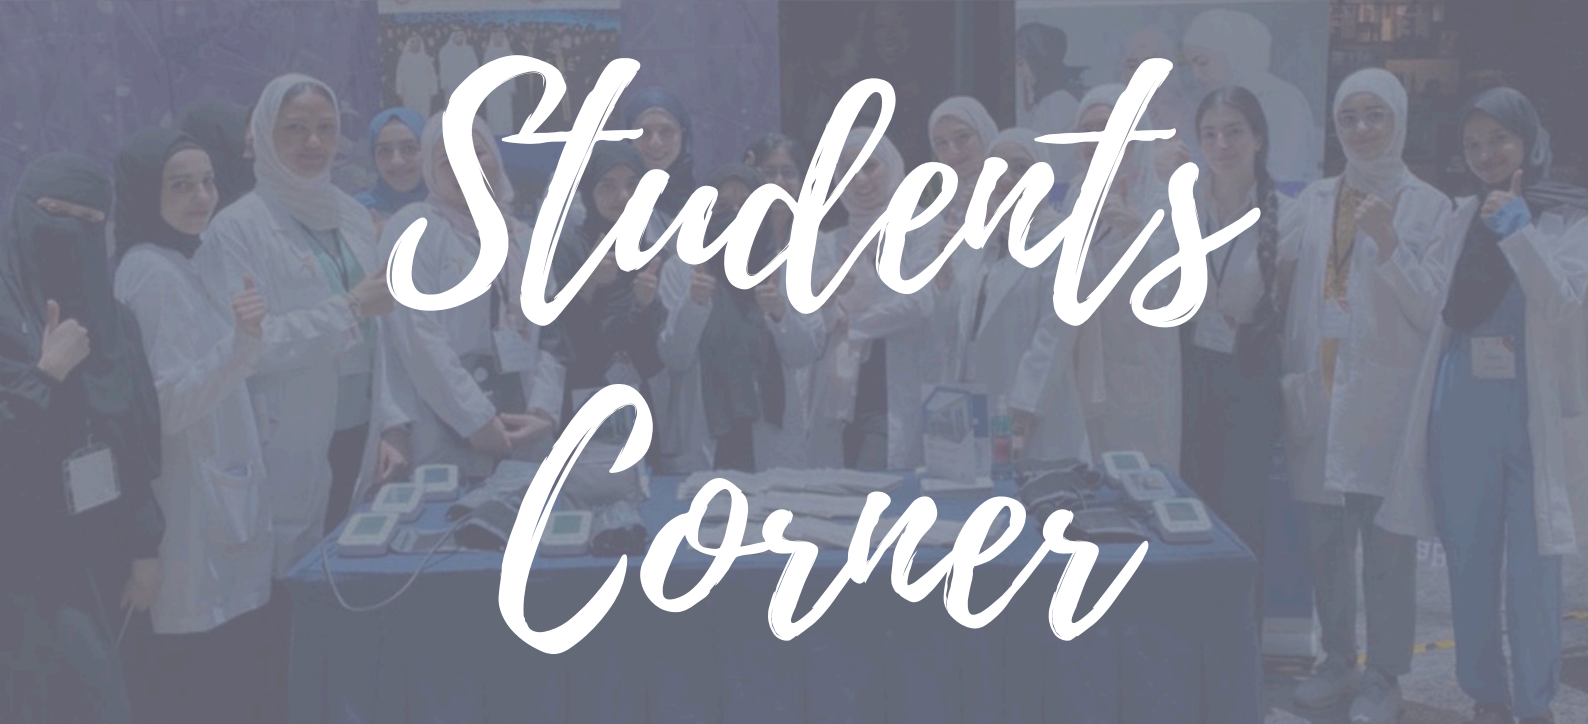

GRADUATION CEREMONY

Under the patronage of His Highness Sheikh Hamdan bin Mohammed bin Rashid Al Maktoum, Crown Prince of Dubai and Chairman of the Executive Council, and in the presence of Her Highness Sheikha Latifa bint Mohammed bin Rashid Al Maktoum, Dubai Medical University proudly celebrated the graduation of the 2023/2024 batch of the College of Medicine and the College of Pharmacy.

This achievement reflects the dedication, perseverance and excellence of our students who have successfully completed their journey in medical education. We are confident that they will lead the future of healthcare.

Peer Tutoring Club

We are excited to introduce the Peer Tutoring Club, formerly known as the Student Advisory Committee. This initiative is designed to support you in overcoming academic challenges and excelling in your studies.

The club consists of students with outstanding academic performance who are eager to assist their peers. These tutors have been trained to provide personalized support in a confidential and effective manner.

How Can They Help You?

- Simplify challenging course topics for better understanding
- Share effective study strategies and time management tips
- Provide guidance to help you navigate through your academic hurdles

How to Request Help

If you'd like to connect with a peer tutor, simply fill out the form and select the tutor you believe can best support you. Once your request is received, the tutor will contact you directly.

<https://forms.office.com/r/HLhCVUvhGS?origin=lprLink>

Peer Tutoring Club

Peer Tutoring club members training session

The first workshop, titled "How to Be an Effective Tutor for Your Classmates," was successfully conducted. The session, led by Prof. Bazigha, focused on equipping students with practical skills and strategies to enhance their tutoring abilities and foster a supportive learning environment among peers.
